

# Working Prototype Known Problems Report

Product: SafeHouse

Team: Safehouse Keepers

Date: 23 November 2021

These issues are very small, but still worth mentioning:

- Entering a task with just whitespaces still adds the task to the task list.
- If your home is at coordinates (0,0) and you're currently at home, the app thinks you're at home but the home icon won't appear on the map.
